Why NORTH CAPE?

At NORTH CAPE we strive to go beyond conventional standards to deliver an unprecedented travel experience with our 4x4 vans.

We bring together design, exclusivity, and functionality in every vehicle, therefore redefining the essence of travel and adventure.

With perfect harmony between excitement and safety, our passion for excellence and innovation is reflected in every detail, from design to delivery.

WHY NORTH
CAPE?

WHY NORTH
CAPE?

Exclusivity

Standard equipment that goes beyond what you expect.

Design

Our vans draw everybody attention... from the outside for the inside. Each 4x4 camper van we design is a symbol of elegance and distinction.

Premium Quality

Premium qualities in manufacturing and selection of materials and components.

Safety

German engineering. The MAN TGE 4x4 chassis combines reliability, performance, and comfort with the safety provided by intelligent all-wheel drive on any terrain.

+

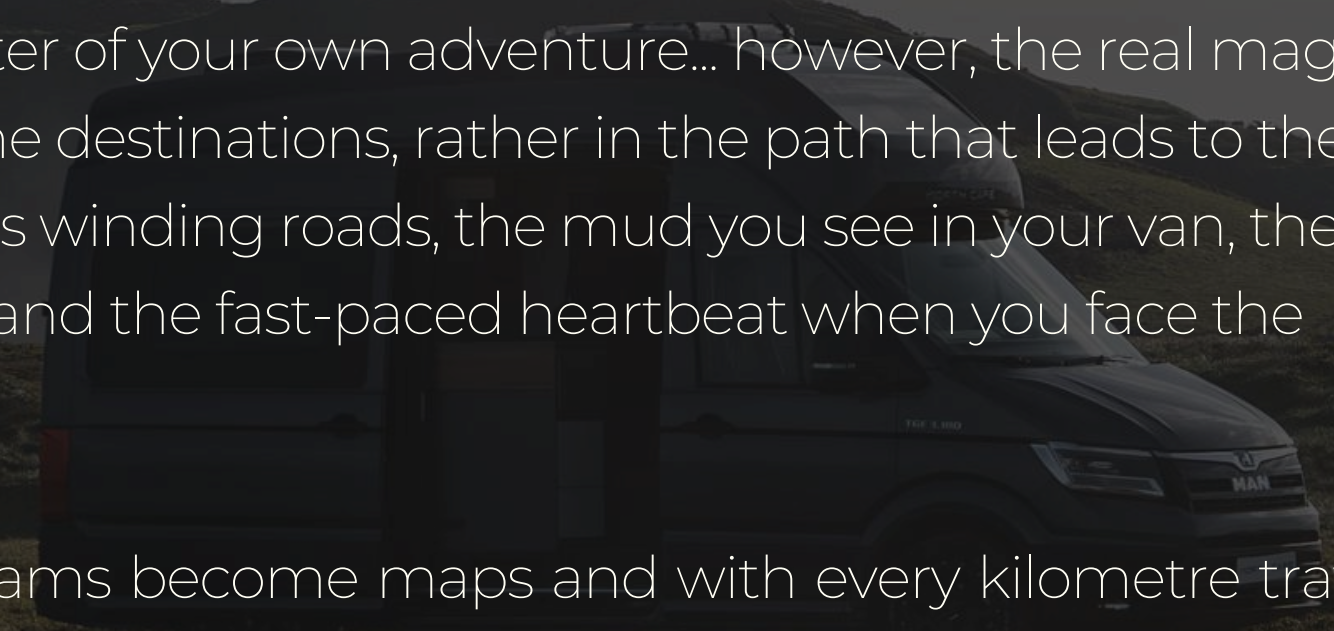

In a world where we are increasingly looking for more thrills, to feel our heartbeats stronger, where dreams become realities on wheels, a journey emerges that challenges the limits and makes you feel freedom in its utmost expression.

T H E
A D V E N T U R E
I S N O W

With NORTH CAPE, you are the master of your own adventure... however, the real magic of the adventure is not to be found in the destinations, rather in the path that leads to them. It is the whisper of the wind as you cross winding roads, the mud you see in your van, the stories you share around a campfire, and the fast-paced heartbeat when you face the unknown.

With our 4x4 camper vans, your dreams become maps and with every kilometre travelled, with every path taken, you discover a new part of yourself. Your NORTH CAPE camper is your companion in the true freedom, a reminder that life is an adventure waiting to be lived... now.

Our ADVENTURE models

Discover the essence of adventure with our 4x4 camper vans. Our models adapt to your adventurous lifestyle, offering exceptional performance on any terrain with maximum safety and comfort. NORTH CAPE is the ideal camper for those that are seeking adventure without set design aside, exclusivity, and comfort.

Compact, powerful, and ready for the Adventure

Equipped with exceptional equipment, with which you will not miss any detail. The perfect combination of power, comfort, and readiness for any adventure makes them the perfect 4x4 camper for lovers of active tourism and nature.

An Interior that Defines the Experience

A carefully crafted interior design makes being inside a NORTH CAPE a cozy and comfortable experience. The design of each model reflects a commitment to quality and habitability, offering superior insulation that guarantees warmth and comfort in any weather.

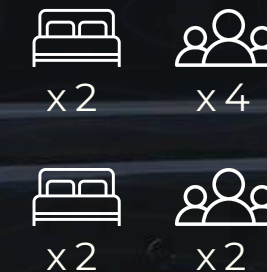

The interiors, meticulously designed, are not only aesthetically attractive but also practical. The excellent habitability is complemented by high-quality finishes and storage solutions that assure every space of the interior is functional.

THE
ADVENTURE
OF LIVING

Designed for the adventure of living.

All our vans feature the full 4x4 drive of the MAN TGE. This system represents a qualitative leap in traction and control in vehicles of its class, offering a perfect combination of performance, safety, and versatility for the most demanding drivers. Thanks to the incorporation of the innovative 5th generation Haldex full drive clutch, the MAN TGE sets new standards in driving over any terrain, optimising the driving experience on the road... or off it.

Committed to a travel experience that combines autonomy and sustainability, we equip all our NORTH CAPE vans with solar panels and smart charge controllers.

These systems, along with a powerful 300Ah lithium battery and an inverter with an output power of 1600W at 25°C and 3500W peak power, guarantee that you have access to a 230V connection at any time, emulating the comfort of your home in the midst of nature.

THE
ADVENTURE
OF LIVING

KITCHEN / DINNING ROOM

Gas ceramic hob: Quality and Innovation for the Most Demanding

KITCHEN /
DINNING ROOM

Exclusive ceramic hob design with integrated touch control panel and two cooking zones equipped with the latest generation of the Flexible Heating Zone (FHZ) system. It has 18 levels for cooking power.

It is the perfect solution for open kitchens, without having to worry about dirt accumulating in the kitchen, ensuring easy cleaning.

The kitchen has a gas leak alarm, as well as a gas supply shortage signal.

OPTIONAL

Full Electric Package: DOMETIC induction cooktop, 2400 W inverter, and an additional 200 Ah VICTRON battery

KITCHEN /
DINNING
ROOM

Designer Refrigerator

DOMETIC RC 10.4T refrigerator featuring a black design and a capacity of 70 litres, equipped with an external compressor and a 12 V power supply. The refrigerator includes an integrated freezer compartment.

The multifunction thermostat features LED lighting. In addition, it stands out for its low noise level and low energy consumption during the night. It also helps prevent unpleasant odours from developing during extended periods of inactivity.

KITCHEN /
DINNING
ROOM

DOMETIC 3-in-1 Air Fryer, standard on all our models

Its versatility for cooking, heating and defrosting makes it an essential appliance in any modern kitchen, optimising space while significantly enhancing convenience and everyday cooking enjoyment.

Here are some of the key features of the DOMETIC AC MWAO 240 3-in-1 Air Fryer:

- 1,500 W power.
- Air fryer: prepares crispy food using little or no additional oil.
- Microwave: features ten power levels.
- Grill function: allows you to bake, roast and grill food in a traditional way.
- 8 automatic cooking programmes.
- Smart reheating function: heats food according to its weight.

OPTIONAL

Can be replaced with additional storage space

BATHROOM

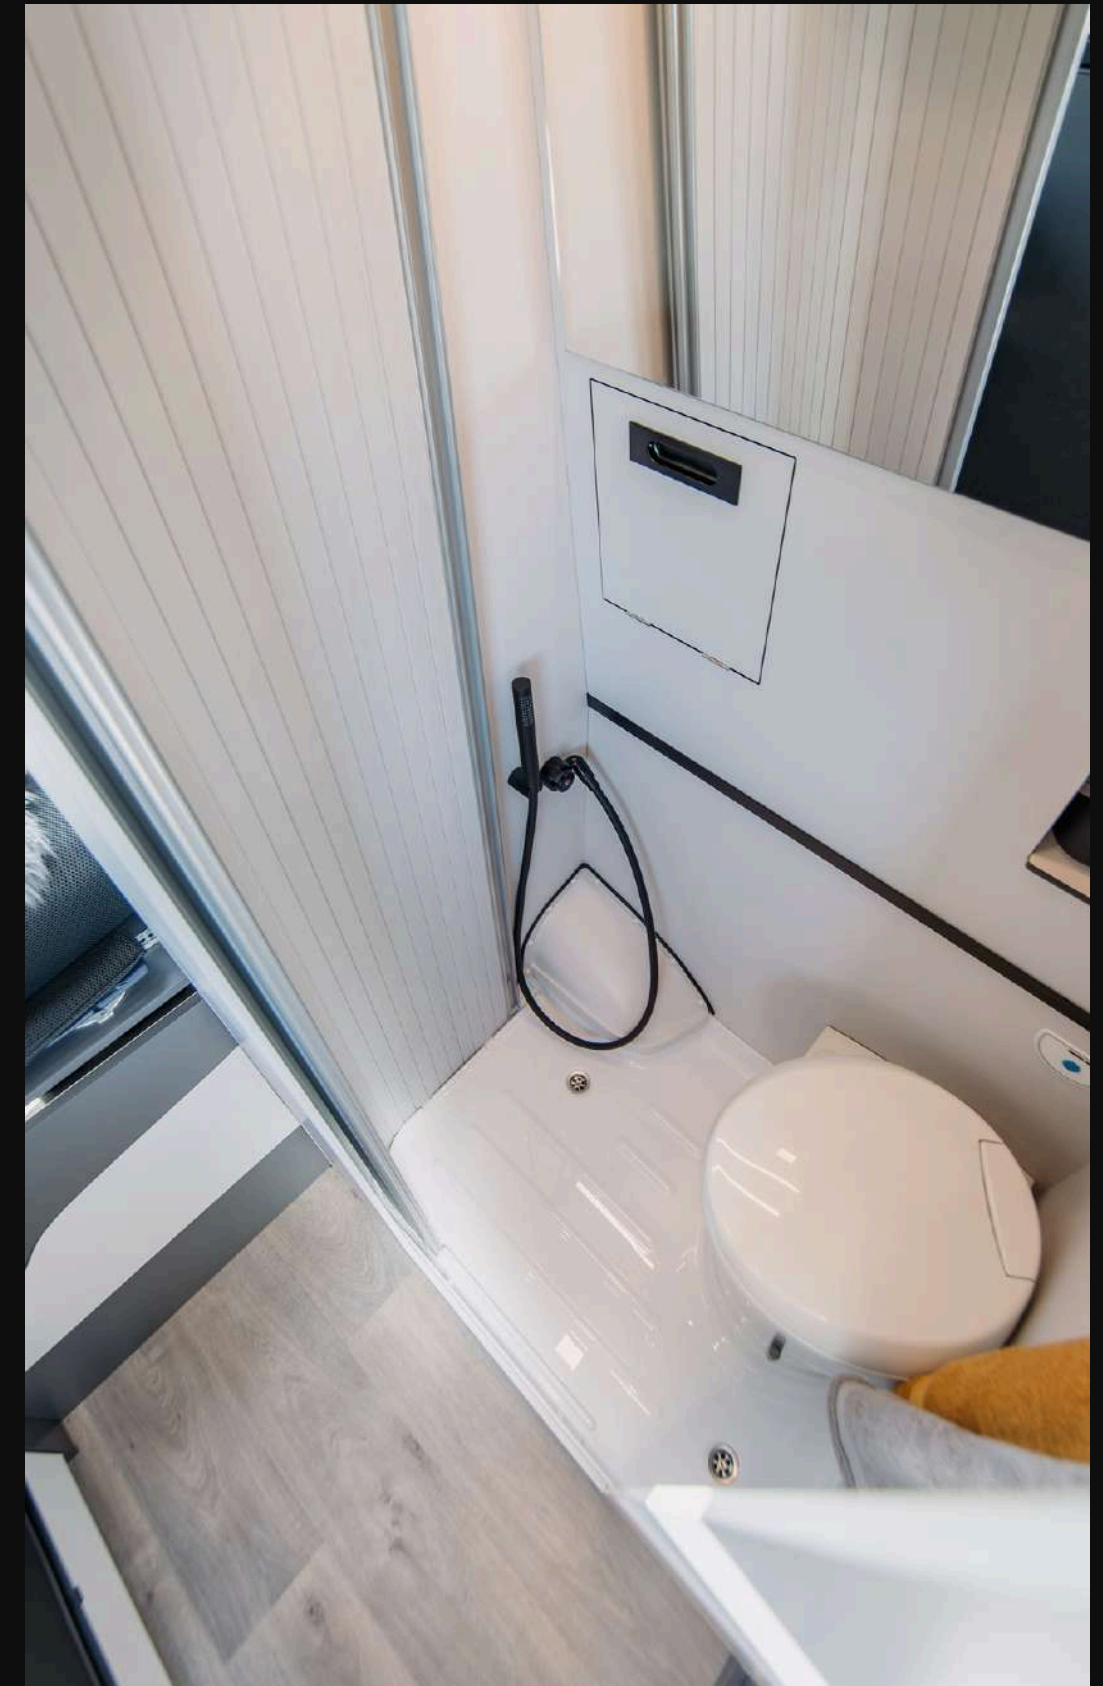

Fully Equipped
Fully equipped bathroom for total comfort.

Fully equipped bathroom with
foldable sink, shower, WC
(removable from the outside),
and storage spaces.

BATHROOM

OPTIONAL

Option to install CLESANA dry toilet on request.

BEDROOM

B E D R O O M

Total Comfort

Our models have a rear transverse bed, it measures 1350-1200 x 1930 mm with a spring base that ensures ventilation and total comfort for sleeping.

OPTIONAL

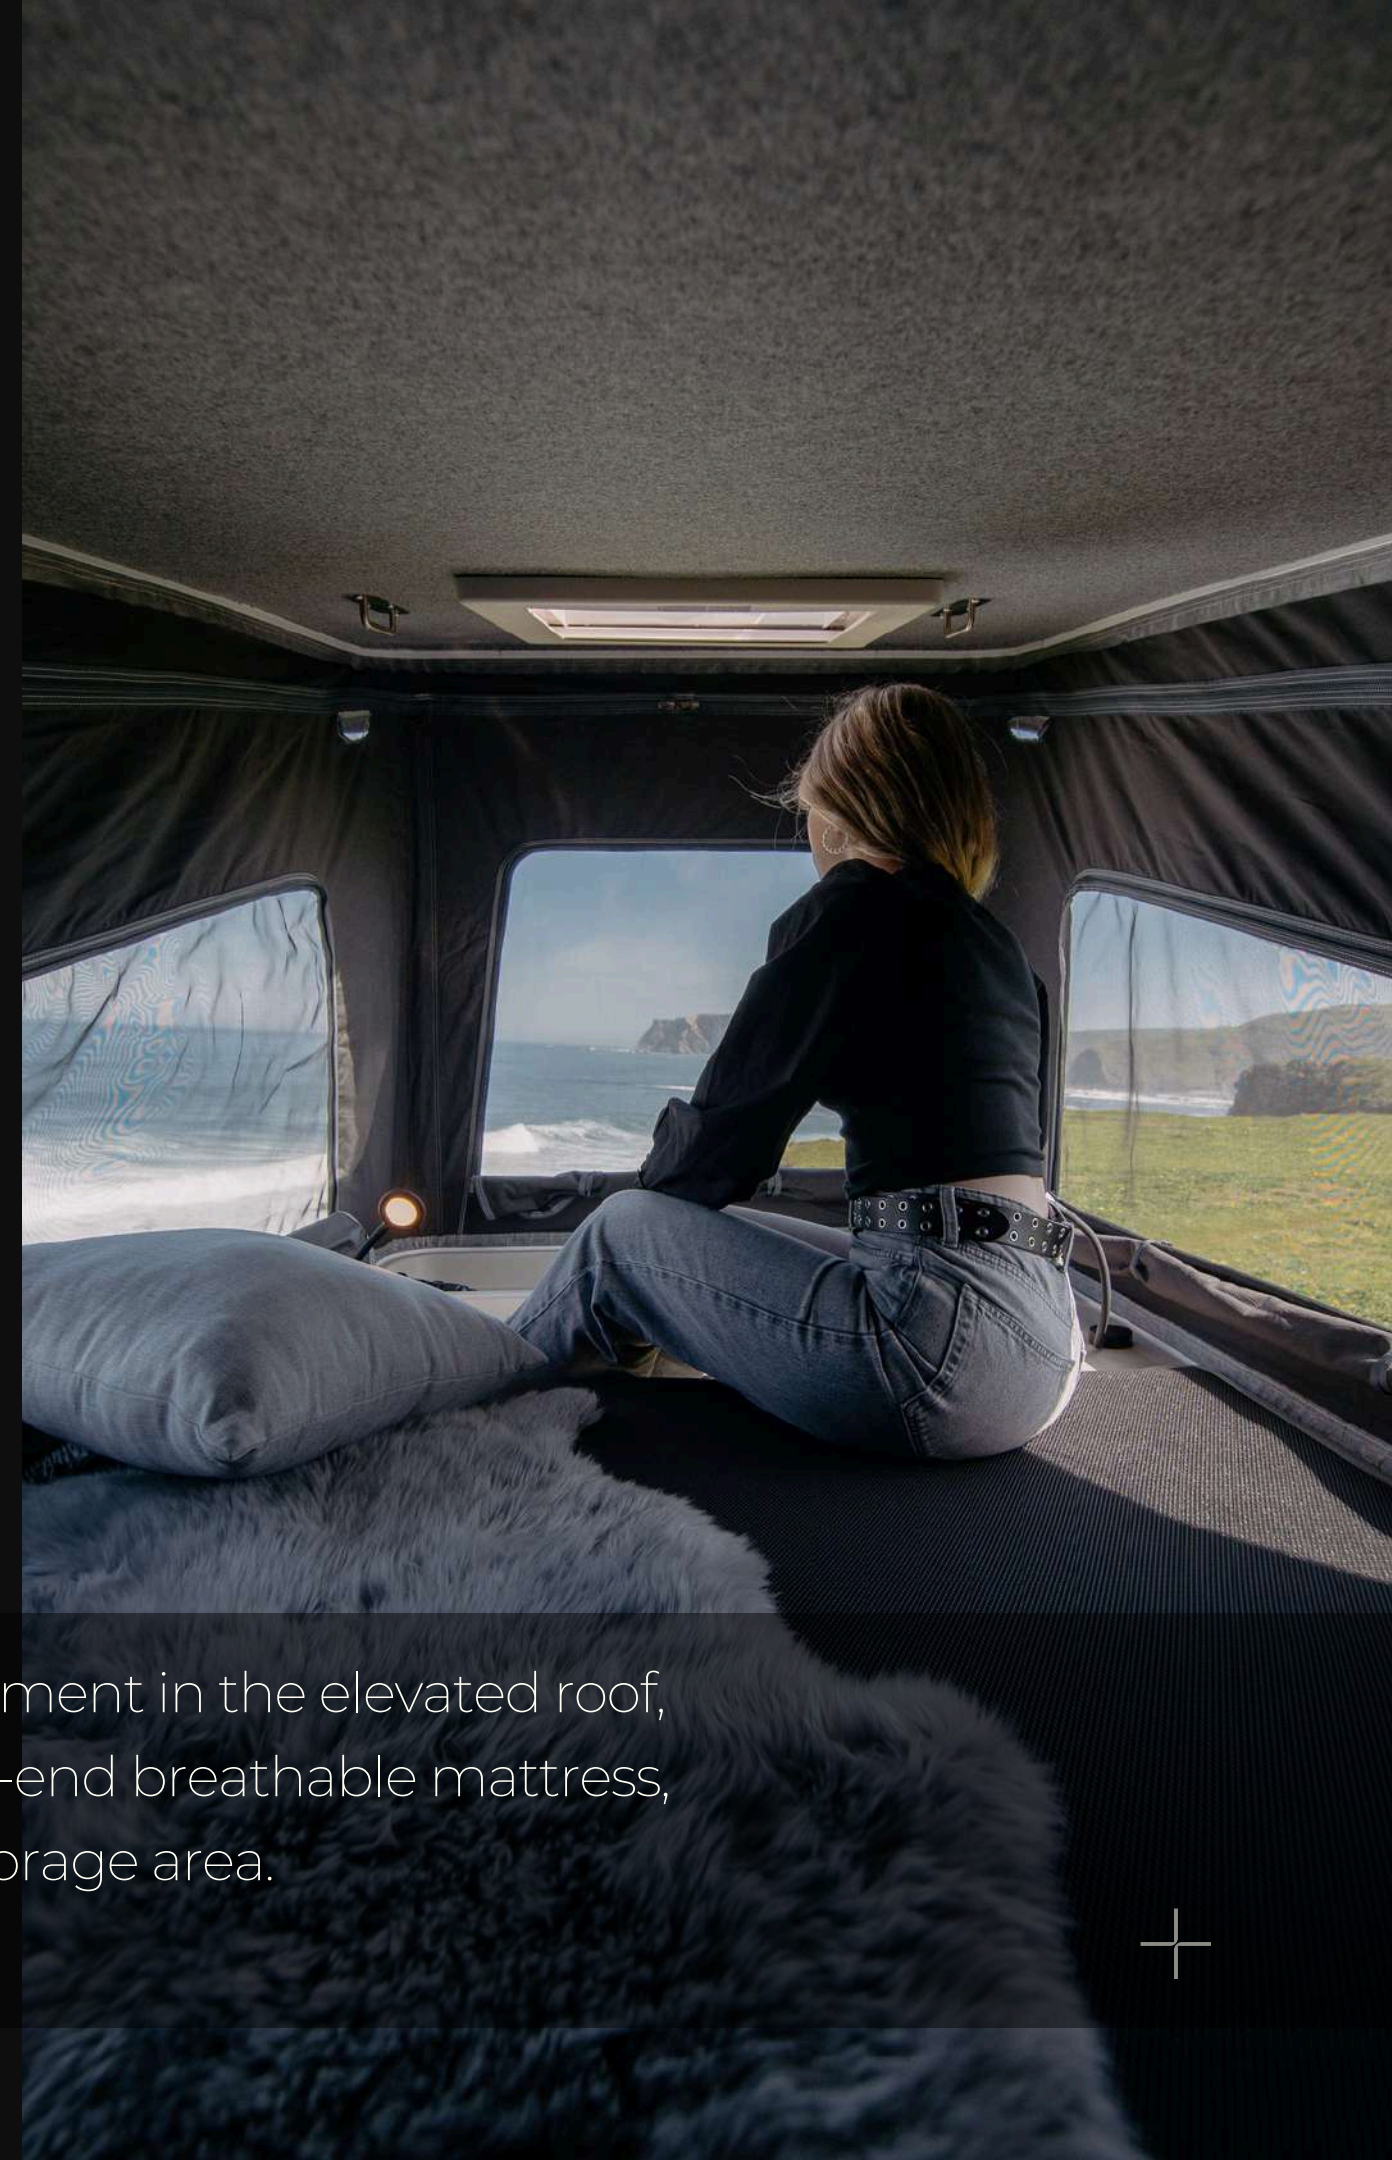

Step to aid access to the bed

BEDROOM

ADVENTURE 6XR. It offers a sleeping compartment in the elevated roof, a comfortable 1200 x 2000mm bed with a top-end breathable mattress, dual reading lights, USB ports, heating, and storage area.

BEDROOM

ADVENTURE 6XH. Foldable bed at the front measuring 1200 x 1800 mm. The space includes a storage area, LED lighting, and charging ports.

BEDROOM

ADVENTURE 6XH and 6XHT / 6XHT2. The elevated roof and large skylights provide a brightness and spaciousness that is captivating.

LIGHTING

STORAGE SPACE

Outdoor shower with hot and cold water.

OPTIONAL

Rear garage equipment for indoor bicycle storage.

Technology

Faithful to our vision of technology applied to caravanning, the VICTRON control unit reflects, just like our essence, the values of robustness and reliability.

Thanks to the VICTRON system, managing your camper van is optimized, allowing you to oversee aspects such as:

- The levels of fresh and gray water tanks
- Interior and exterior temperature, as well as humidity levels
- Activation of the water pump and gray water solenoid valve
- Monitoring of consumption and charging status

This advanced system provides you with a comprehensive and accurate overview of your camper's resources. All of this is accessible through an intuitive 7" touchscreen panel, a mobile app, or VICTRON's VRM platform, ensuring you enjoy the utmost peace of mind on every journey.

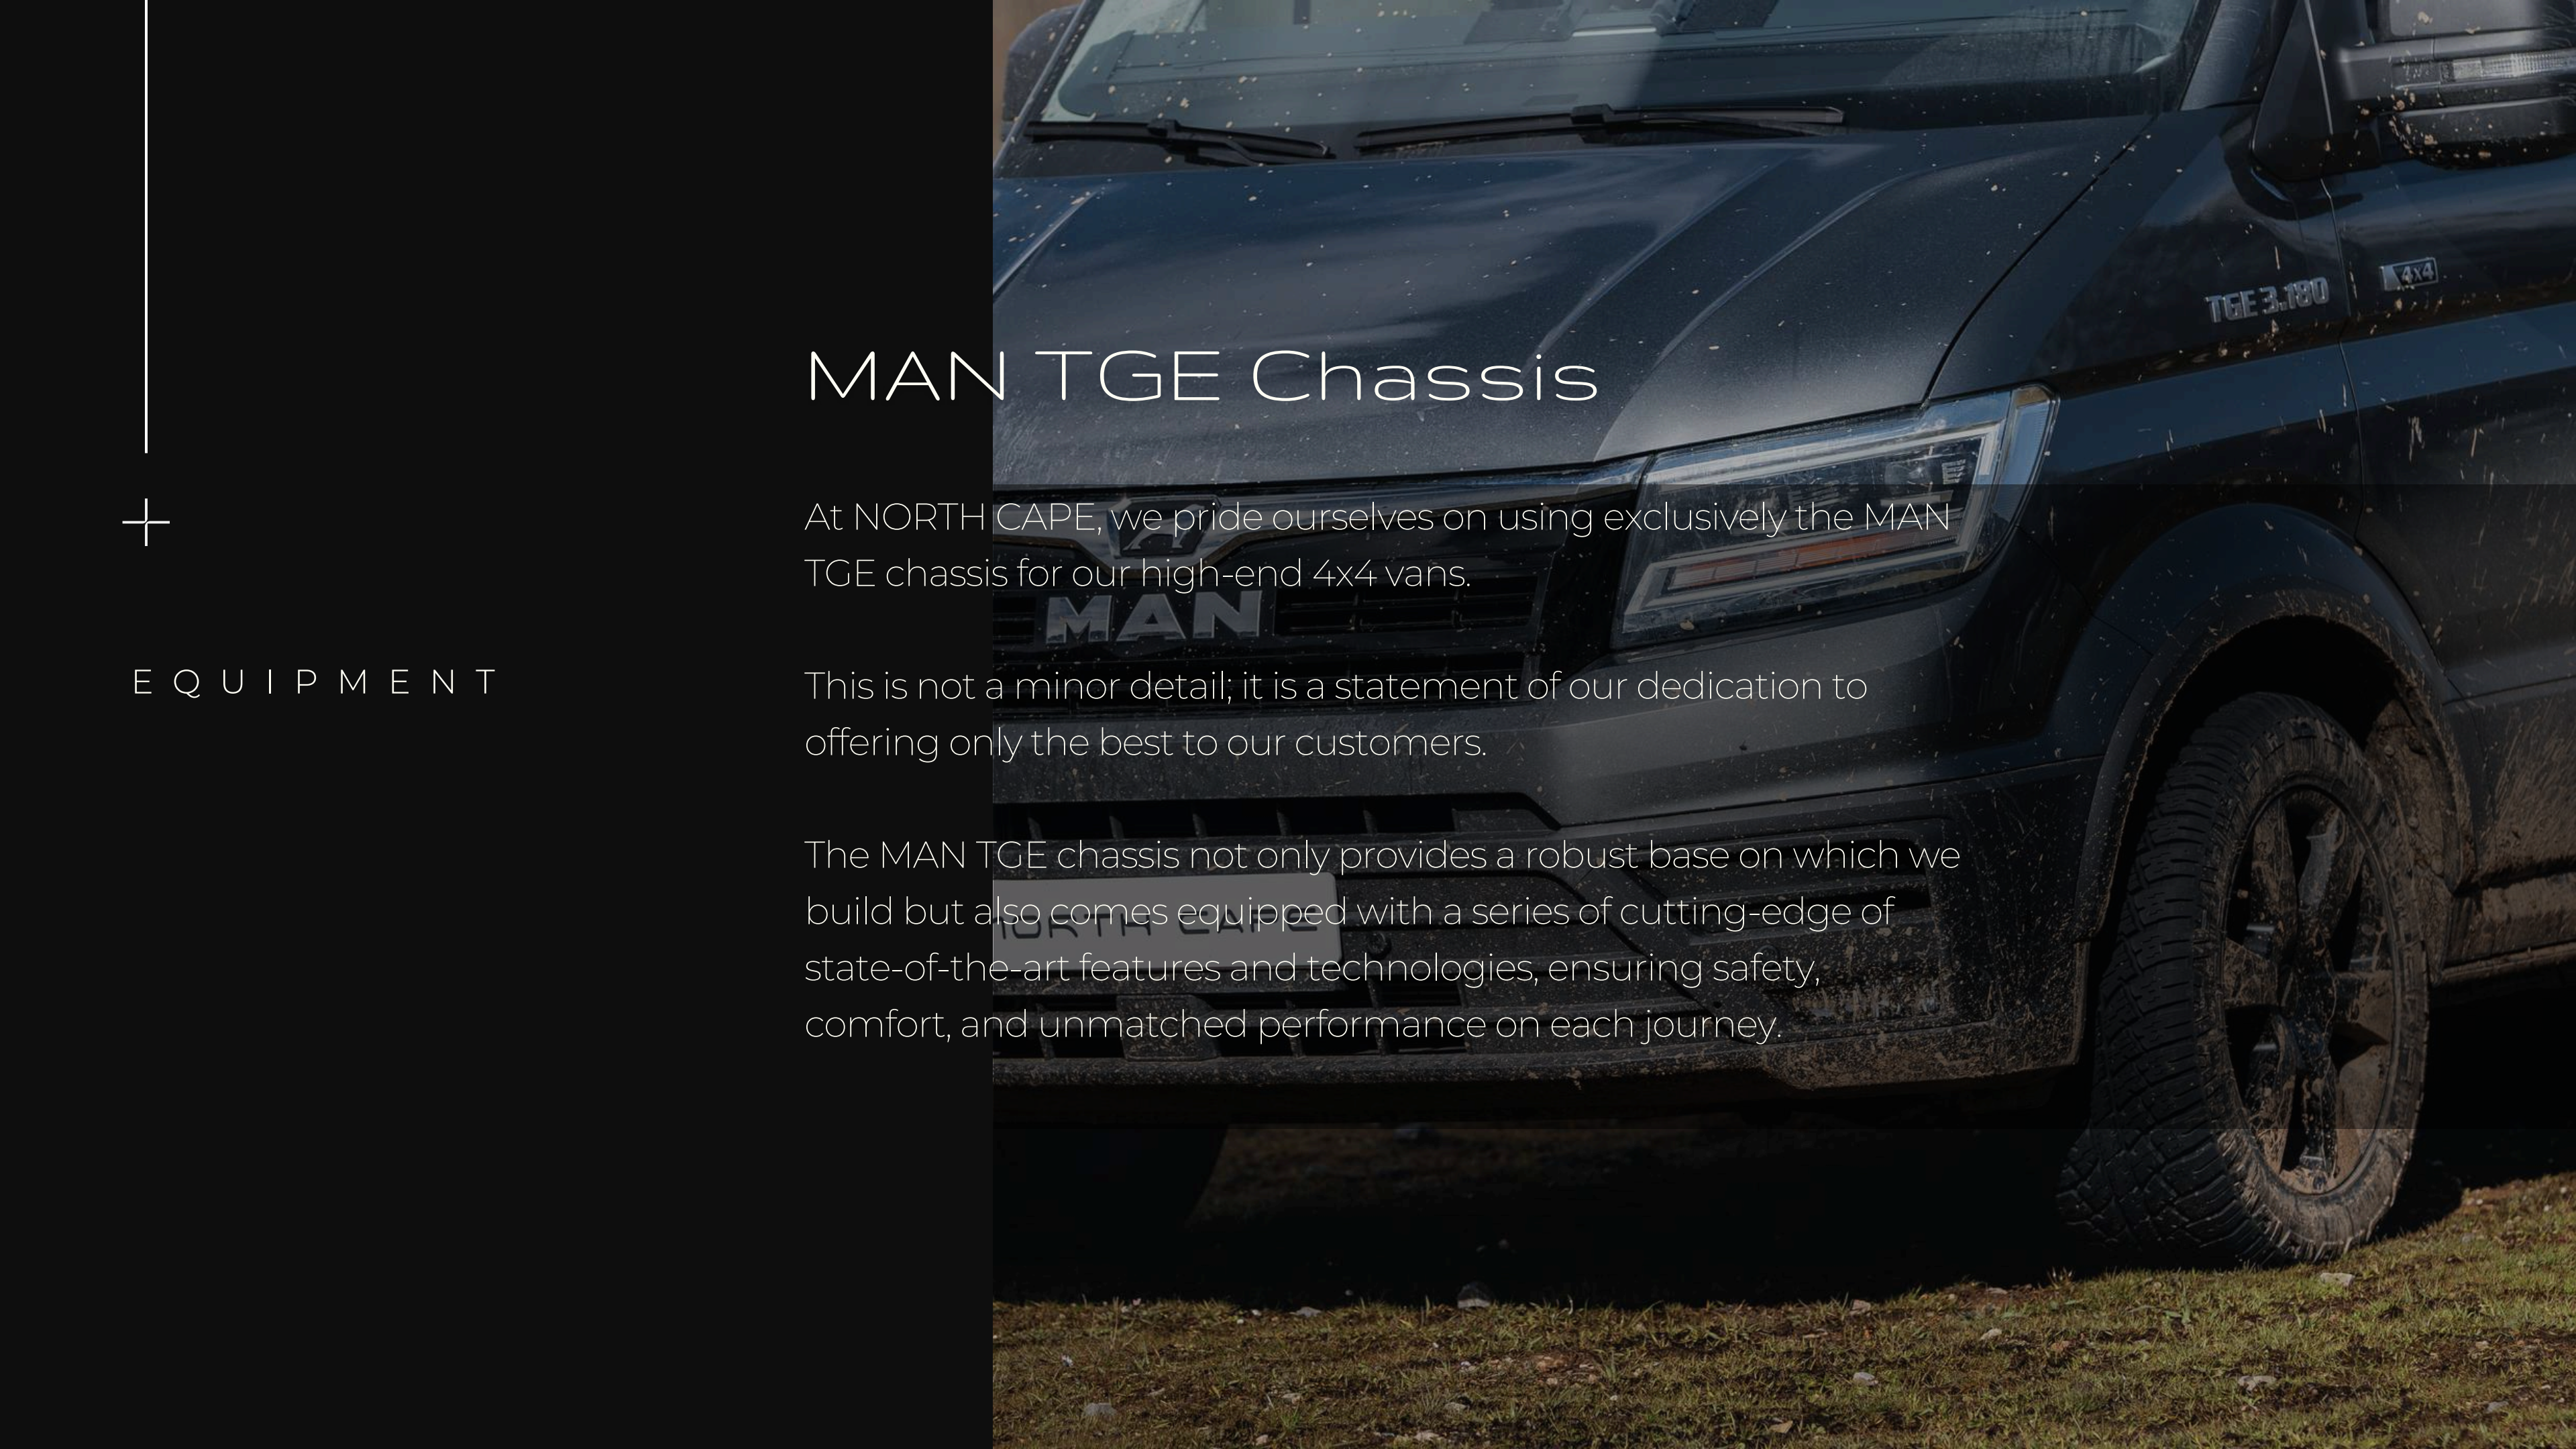

TECHNOLOGY

EQUIPMENT

MAN TGE Chassis

At NORTH CAPE, we pride ourselves on using exclusively the MAN TGE chassis for our high-end 4x4 vans.

This is not a minor detail; it is a statement of our dedication to offering only the best to our customers.

The MAN TGE chassis not only provides a robust base on which we build but also comes equipped with a series of cutting-edge of state-of-the-art features and technologies, ensuring safety, comfort, and unmatched performance on each journey.

E Q U I P M E N T

A Complete Standard Equipment

Each camper van made on the MAN TGE chassis features exceptionally complete standard equipment, designed to meet the needs of the most demanding travellers.

From advanced driving aids to reinforced suspension and stabilization systems, each element has been carefully selected to provide a superior driving experience.

This advanced equipment has a direct positive effect not only on the vehicle's dynamic properties on poorly maintained roads but also on the overall driving comfort.

Whether you are facing uneven roads, tight curves, or adverse wind conditions, the MAN TGE chassis guarantees a smooth and stable experience, allowing you to enjoy the scenery and the adventure without worries.

E Q U I P M E N T

Characteristics

- 4x4 all-wheel drive with differential lock
- 2.0-litre 4-cylinder twin-turbo diesel engine, 177/163 hp
- 8-speed automatic transmission specifically designed for 4x4
- Start/Stop system with brake energy recuperation
- LED daytime running lights with automatic activation of the low-beam headlights, Leaving Home function and manual Coming Home function
- LED main headlights and fog lights with static cornering light
- Laminated, heat-insulating and heated windscreen
- Tyre pressure monitoring system
- Heated leather multifunction steering wheel

OPTIONAL

- H3 chassis preparation for 3.8-tonne gross vehicle weight
- Preparation for tow bar installation
- Webasto engine coolant pre-heating system

- Premium interior soundproofing measures
- Hill Start Assist and Hill Descent Control
- Emergency braking assist
- Electronic Stability Programme (ESP) and ABS with electronic differential lock
- Front and rear parking sensors
- Cruise control with speed limiter
- Rear View reversing camera
- Driver fatigue detection system
- Crosswind Assist
- Climatronic automatic climate control
- Electric parking brake
- Heated windscreen washer nozzles
- Heated front seats

E Q U I P M E N T

TRUMA Combi Hybrid Heating System

EQUIPMENT

The NORTH CAPE camper vans, designed for the winter adventurer, are equipped with the TRUMA Combi D4E heating and hot water system, powered by diesel and supplemented with electric resistors. This hybrid system guarantees efficient and fast heating. Control is carried out in an easy way through the iNet X System

The TRUMA system ensures comfort even while driving thanks to its high-quality burner and efficient combustion system. The integrated pressure sensor (altitude kit)* makes the Combi D4E adapt its operation to your needs, efficiently mixing fuel under all conditions. The TRUMA FrostControl valve prevents frost damage, keeping the water system safe on the coldest days.

*As standard, NORTH CAPE installs the TRUMA MonoControl CS gas pressure regulator with a crash sensor for operation with a gas bottle. This sensor allows the living area to be heated safely even while driving. In the event of an accident, the crash sensor immediately shuts off the gas supply, helping to prevent gas leaks if the installation is damaged.

EQUIPMENT

Extended Autonomy in Cold Environments

Each NORTH CAPE comes prepared for energy independence, equipped with solar panels, a 300Ah lithium battery, and a 230V inverter; allowing you to enjoy all the comforts of home no matter where you are.

OPTIONAL

Option to install a second 200 Ah VICTRON lithium battery.

Winter Solutions

EQUIPMENT

The integrated DOMETIC windows take advantage of natural light and help maintain a pleasant environment even in the less bright months, also providing effective insulation and safety, keeping your space bright and protected.

The clean water tank, with a capacity of 100 litres, is installed inside the living area to prevent freezing when exterior temperatures drop below zero degrees Celsius. The grey water tank and the external clean water pipes come heated as standard.

NORTH CAPE
OPTIONAL

Option to isolate the grey water tank.

E Q U I P M E N T

Quality Insulation with Kaiflex

NORTH CAPE vans are carefully insulated using Kaiflex, a high-performance insulation that reliably prevents condensation. Thanks to its closed-cell property, Kaiflex keeps the interior of the van dry and prevents corrosion under insulation (CUI).

Explore with the Confidence of 4x4

EQUIPMENT

The robustness of our 4x4 vans allows you to venture confidently on any terrain. Thanks to its advanced traction technology, NORTH CAPE campers are your safe ally to discover winter landscapes, guaranteeing stability and safety at every step of your journey.

NORTH CAPE campers come standard with the prestigious and exclusive DELTA wheels and LODER AT#1 all-terrain tyres marked with the "Three Peak Mountain Snow Flake" symbol, which identifies it as a fully developed winter tyre according to European guidelines. The LODER AT#1 has been specially designed and developed in Germany to meet European road and off-road requirements.

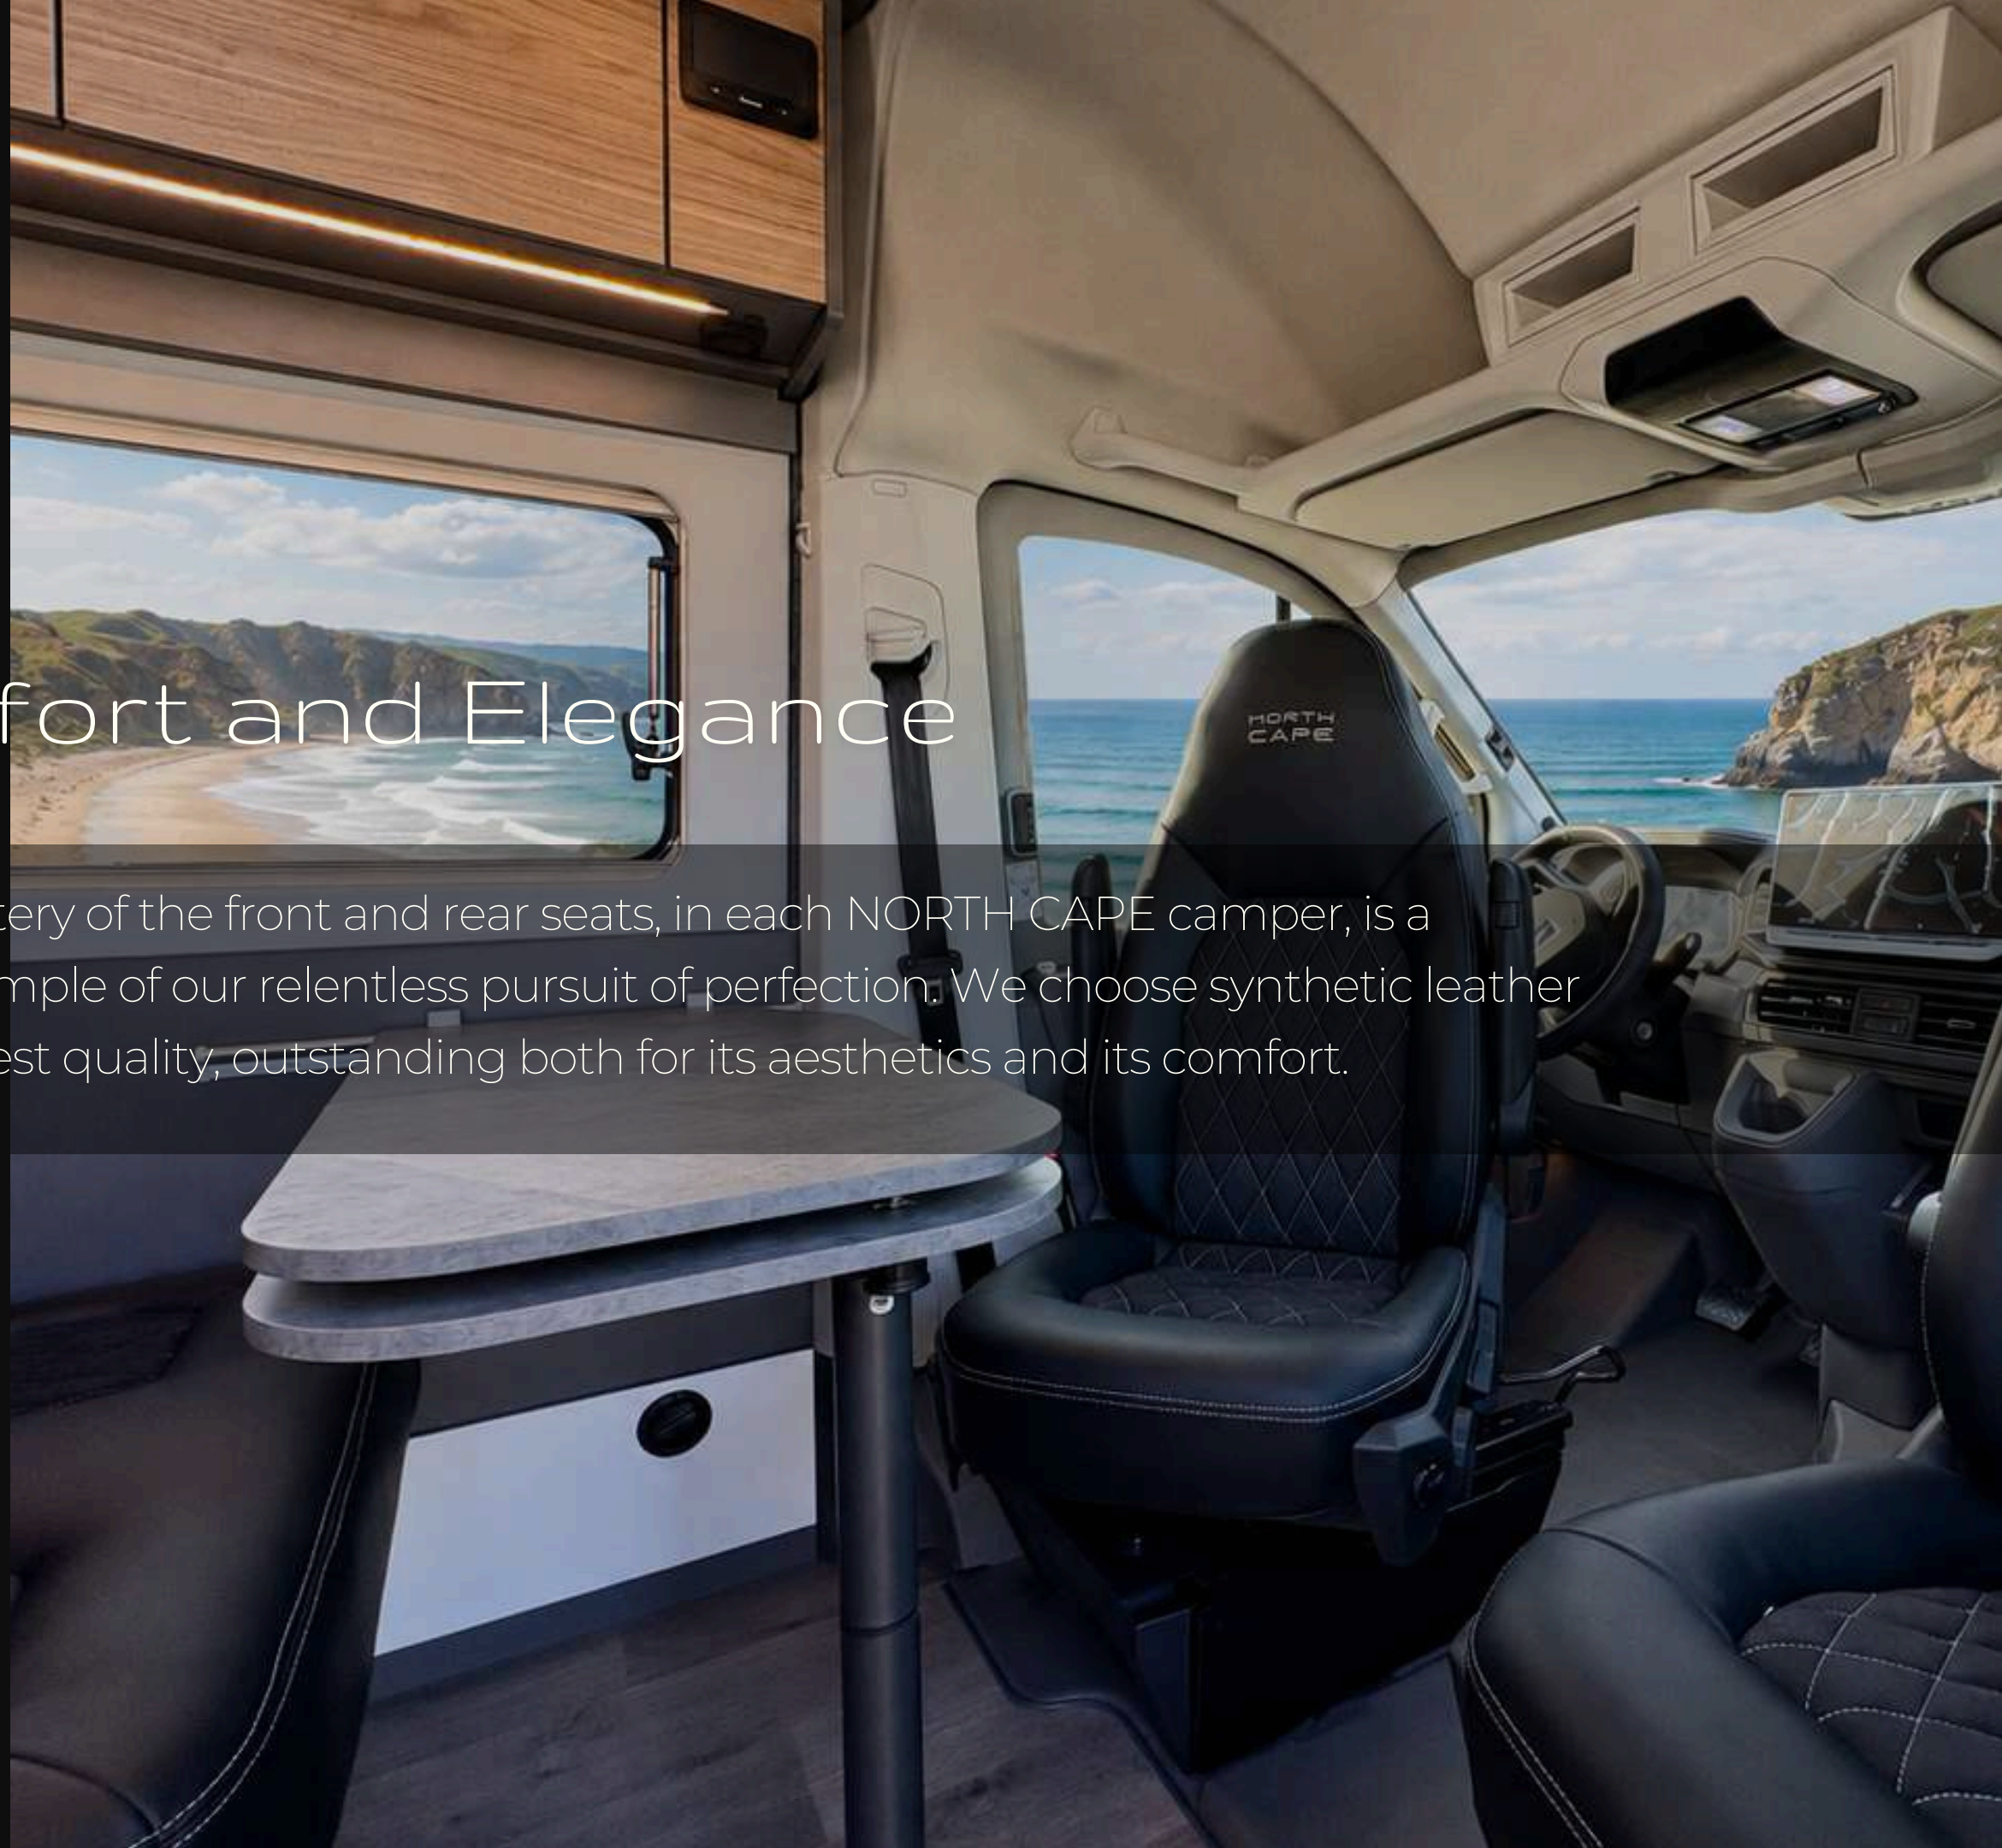

EQUIPMENT

Comfort and Elegance

The upholstery of the front and rear seats, in each NORTH CAPE camper, is a perfect example of our relentless pursuit of perfection. We choose synthetic leather of the highest quality, outstanding both for its aesthetics and its comfort.

The image shows the interior of a modern camper van. On the left, there is a kitchenette with a grey countertop, a black induction cooktop, and a black faucet. Above the counter is a window. In the center, there are two black leather seats with a diamond-quilted pattern on the backrests. To the right, there is another window. The walls and upper cabinets are made of light-colored wood. The ceiling has recessed lighting. The overall atmosphere is clean, modern, and comfortable.

Details that Make the Difference

EQUIPMENT

What truly distinguishes NORTH CAPE in the world of campers is that design and quality are our obsession, and we take great care of the details. Each finish is the result of a careful design and manufacturing process, created to exceed the expectations of the most demanding customers. We strive to ensure that every line, texture, and functionality is not only practical but also aesthetically appealing, making a significant difference on every journey.
